

COURSE NAME: PNE124 Nursing Theory II

Credit Value: 3
Total Course Hours: 42
Prerequisite Course(s): PNE 114 PSY 200
Corequisite Course(s): None

COURSE DESCRIPTION

This course will focus on health promotion and health protection strategies for selected individuals across the lifespan related to individuals, families, groups, and communities including applicable indigenous health knowledge and healing practices. This course will also examine the evolution and organization of Canada's Health Care System, while examining the changing role of nursing and nursing practice in relation to current health issues and future trends.

LAND ACKNOWLEDGEMENT

Canadore College resides on the traditional territory of the Anishinaabeg and within lands protected by the Robinson Huron Treaty of 1850. This land is occupied by the people of Nipissing First Nation, Treaty #10 in the Robinson Huron Treaty of 1850 since time immemorial.

PLAR INFORMATION

This course is not eligible for Prior Learning Assessment and Recognition.

COURSE LEARNING OUTCOMES

Upon completion of this course, the student will have reliably demonstrated the ability to:

- | | |
|--|--|
| <p>1.0 Discuss health promotion and health protection strategies for each stage from infancy to late adulthood utilizing Gordon's Functional Health Patterns and the nursing process.</p> <ul style="list-style-type: none">1.1 Discuss the impact of lifestyle choices on health promotion and health protection (including nutrition, activity/exercise, and wellness).1.2 Discuss the importance of culture as a factor in health promotion and health protection.1.3 Discuss age-appropriate health screening and evidence-based assessments.1.4 Discuss age-related safety issues.1.5 Identify health promotion/maintenance strategies for the infancy to late adulthood periods.1.6 Discuss the role of the practical nurse in holistic health promotion from infancy to late adulthood.1.7 Consider the roles of others in determining their own professional and interprofessional roles | <p>woman during the transition from prenatal to postpartum.</p> <ul style="list-style-type: none">2.1 Discuss normal physiological changes in the pregnant woman.2.2 Discuss the normal psychosocial concerns of the pregnant woman.2.3 Explain the purpose for prenatal screening and diagnostic tests.2.4 Discuss the impact of teratogens on prenatal development.2.5 Discuss the psychosocial adaptation of the childbearing family.2.6 Explore the scope of the role of a practical nurse during the perinatal period.2.7 Describe normal physiological changes in the postpartum woman. <p>3.0 Describe the use of a functional health pattern framework in assessing families throughout the lifespan.</p> <ul style="list-style-type: none">3.1 Define family.3.2 Describe traditional family types/changing family types.3.3 Identify the stages of family development. |
|--|--|

- 3.4 Discuss the impact of culture on the family.
- 3.5 Describe parenting styles.
- 3.6 Discuss frameworks utilized in family assessment.
- 3.7 Apply a framework to assess a family.
- 3.8 Discuss health promotion and health protection strategies for families.
- 3.9 Discuss the role of the practical nurse in assisting individuals to be responsible in achieving/maintaining family health.
- 3.10 Develop a health promotion/health protection plan for a family.
- 3.11 Discuss the impact of domestic violence on the holistic health of a family.
- 4.0 Discuss the concepts of grieving and loss, as a natural process in the development of an individual.
 - 4.1 Define grief.
 - 4.2 Define loss.
 - 4.3 Explore the variety of life situations in which individuals experience grief and loss.
 - 4.4 Explore the impact of culture in relation to grief and loss.
 - 4.5 Explore the role of the Registered Practical Nurse (RPN) in supporting clients experiencing grief and loss.
- 5.0 Describe the assessment of the health needs of a group within a community.
 - 5.1 Define groups.
 - 5.2 Define community.
 - 5.3 Discuss a framework used in the health assessment of a group within a community.
 - 5.4 Explore factors that affect the health of a group (Determinants of Health, culture, economy, technology, politics, environment, heredity).
 - 5.5 Discuss health promotion and health protection strategies for a group within a community.
 - 5.6 Identify community resources that promote health.

GENERAL EDUCATION

This is not a General Education course.

PROGRAM OUTCOMES

This course contributes to the following Ministry of Colleges and Universities approved program learning outcomes (PLO):

Practical Nursing

1. communicate therapeutically with clients and members of the health care team.
2. assess clients across the life span, in a systematic and holistic manner.
3. plan safe and competent nursing care, based upon a thorough analysis of available data and evidence-informed practice guidelines.
4. select and perform nursing interventions using clinical judgment, in collaboration with the client and, where appropriate, the health care team, to promote health and well-being, prevent disease and injury, maintain and/or restore health, promote rehabilitation, and/or provide palliation.
5. evaluate the outcomes resulting from all interventions in the nurse-client interaction and modify the plan of care as required.
6. act equitably and justly with clients and members of the health care team.
7. adapt to a variety of health care settings, using different leadership skills and styles as appropriate to each setting.
9. practise in a self-regulated, professional and ethical manner, complying with relevant legislation and with the standards of both the regulatory body and the practice setting to provide safe and competent client care.

ESSENTIAL EMPLOYABILITY SKILLS OUTCOMES

This course contributes to the following Ministry of Colleges and Universities approved essential employability skills (EES) outcomes:

1. Communicate clearly, concisely, and correctly in the written, spoken, and visual form that fulfils the purpose and meets the needs of the audience.
2. Respond to written, spoken, or visual messages in a manner that ensures effective communication
4. Apply a systematic approach to solve problems
5. Use a variety of thinking skills to anticipate and solve problems
6. Locate, select, organize, and document information using appropriate technology and information systems.
7. Analyse, evaluate, and apply relevant information from a variety of sources.
8. Show respect for the diverse opinions, values, belief systems, and contributions of others
9. Interact with others in groups or teams in ways that contribute to effective working relationships and the achievement of goals.
10. Manage the use of time and other resources to complete projects.
11. Take responsibility for one's own actions, decisions, and consequences.

EXTERNAL COURSE ACCREDITATIONS AND CONDITIONS

This course is a compulsory course within the Canadore College Practical Nursing program, as reviewed and approved by the College of Nurses of Ontario
